A Day to Celebrate!

3.21.24 is World Down Syndrome Day!

World Down Syndrome Day, celebrated annually on March 21st, is a global opportunity to raise awareness, promote inclusion, and celebrate the achievements of individuals with Down syndrome. It serves as a powerful reminder of the inherent dignity and worth of every person, regardless of ability. On this day, communities around the world come together to advocate for equal rights, access to education, healthcare, and employment opportunities for individuals with Down syndrome. World Down Syndrome Day embodies the spirit of unity and acceptance, inspiring us all to foster inclusivity and create a world where everyone is valued and respected.
